Arizona Business Objects and Crystal User Group (AZBOCUG)

May 10, 2012

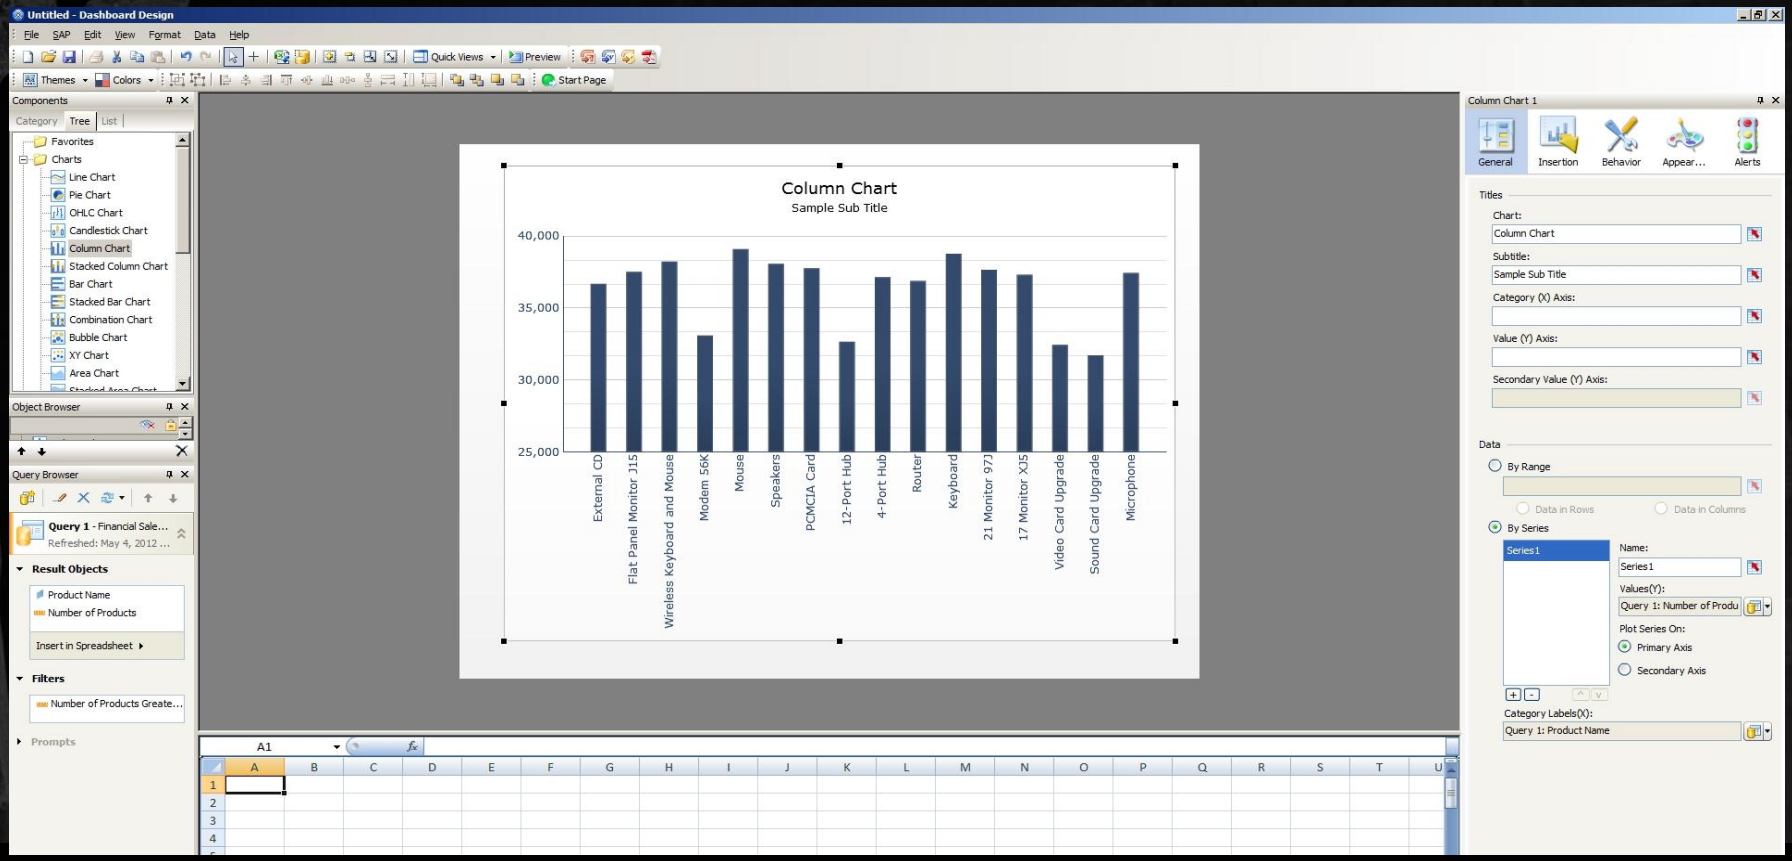
What's New in Dashboard 4.0?

Dashboard 4.0 Enhancements

- User Interface
- Accessibility
- Translation
- Universe Support

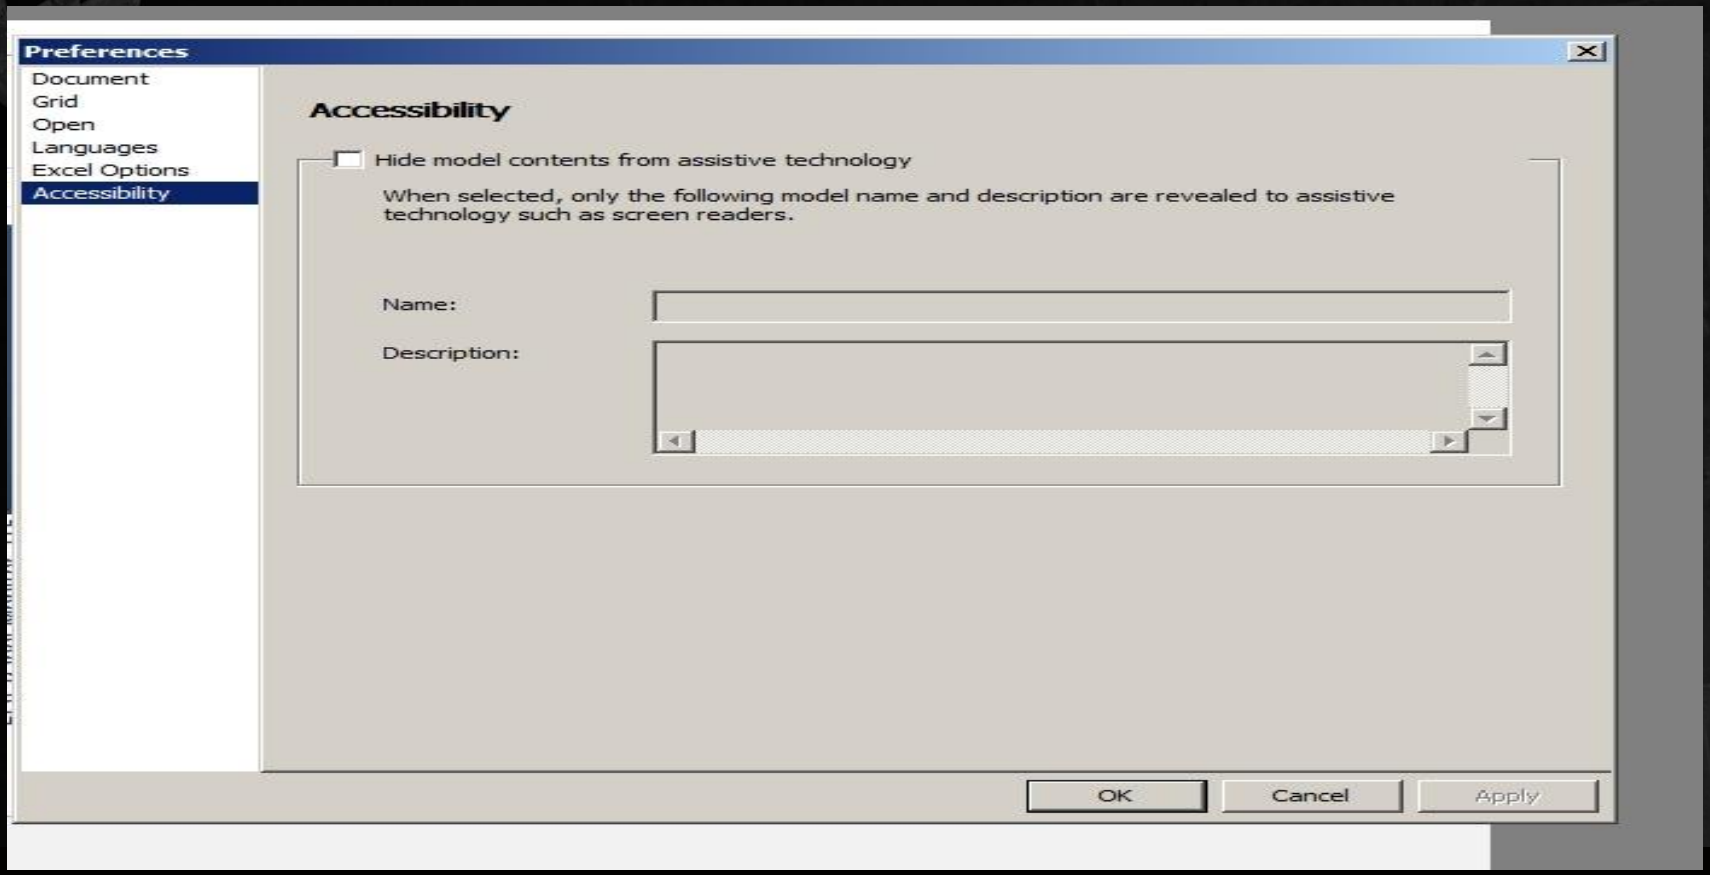
User Interface

- Luckily, minor UI changes



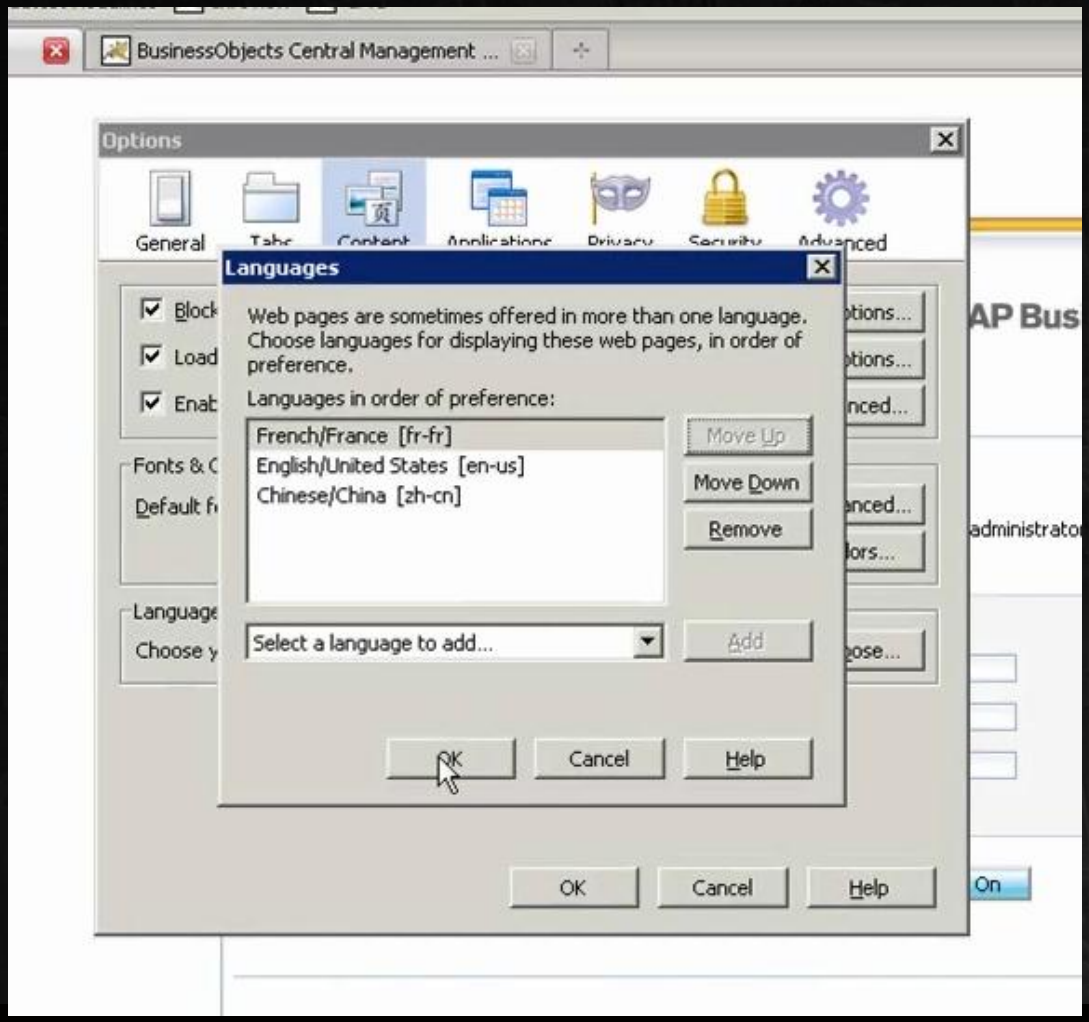
Enhanced Accessibility

- Screen Readers



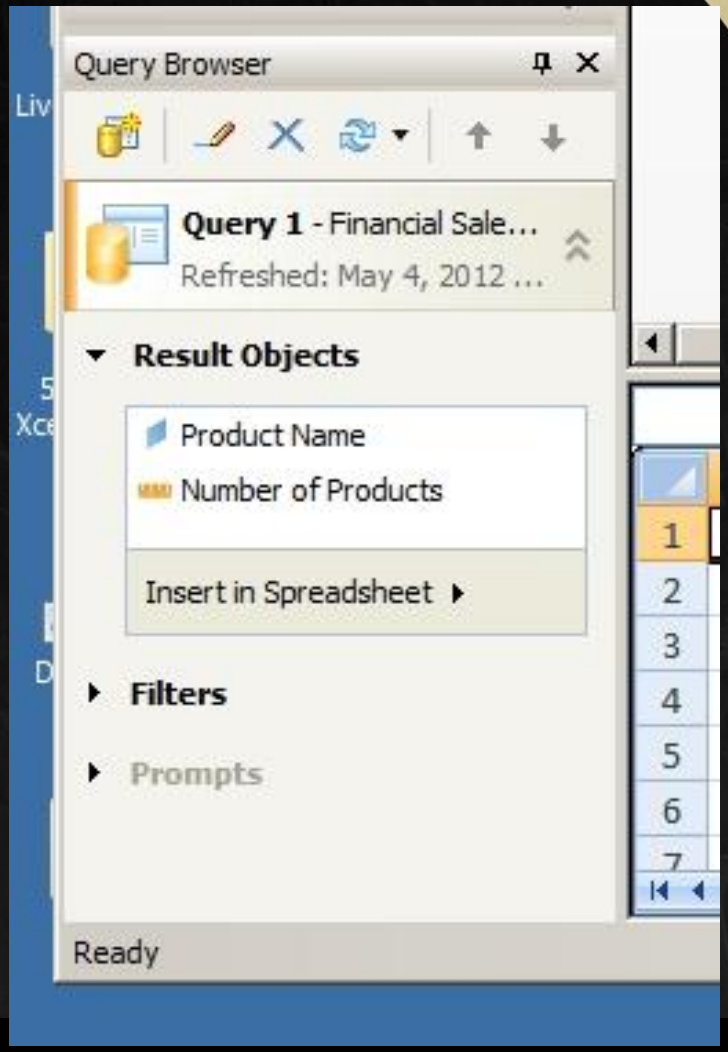
Translation

- Publish to BOE - cannot have translation if published outside of BOE
- Can change the language



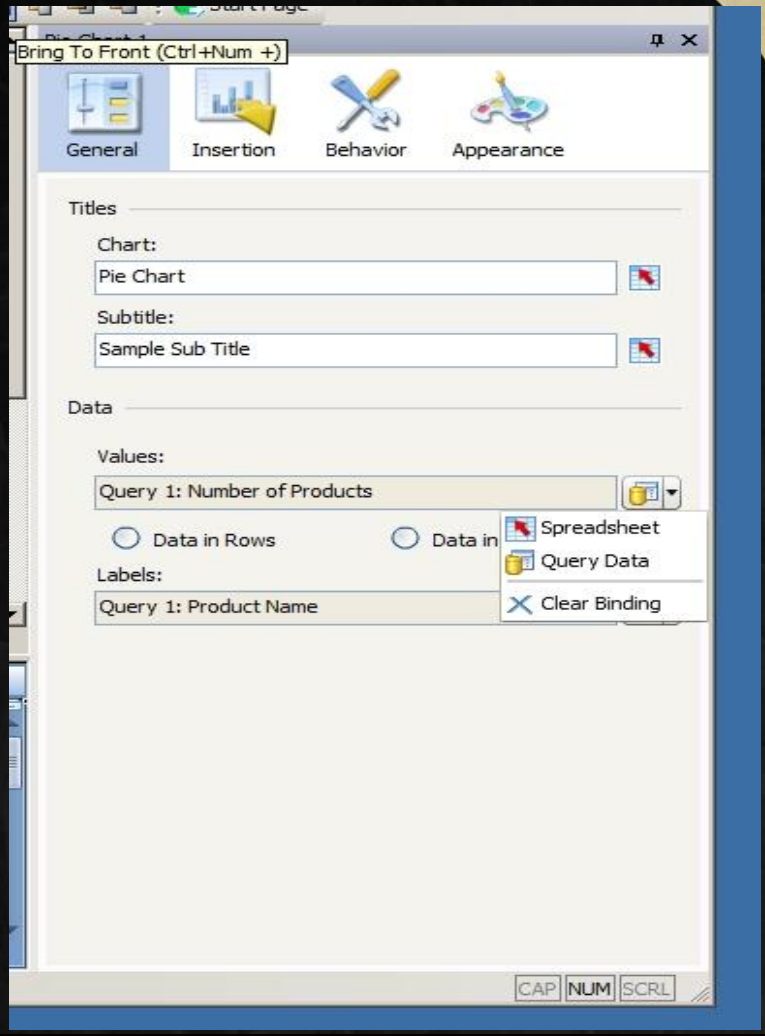
Enhanced Universe Support

- New Universe Query Feature



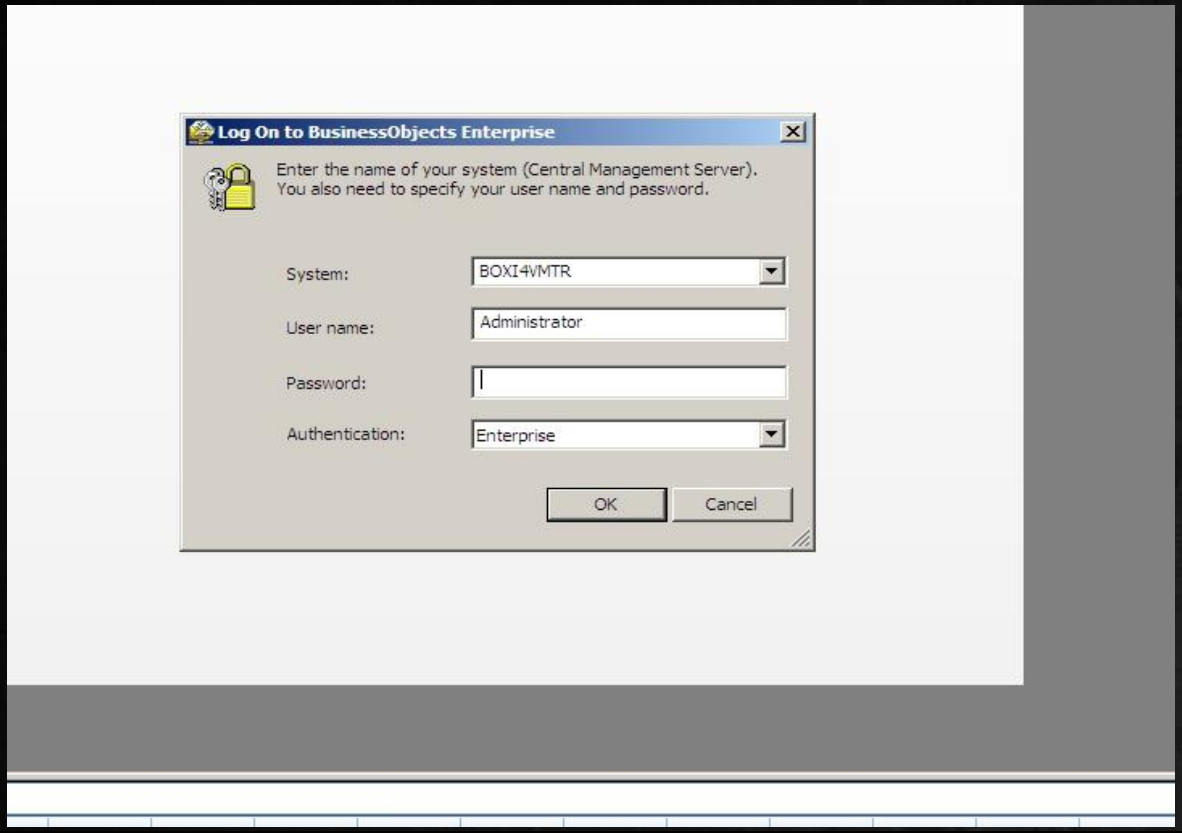
Enhanced Universe Support

- Universe Query lets you connect results directly to a component



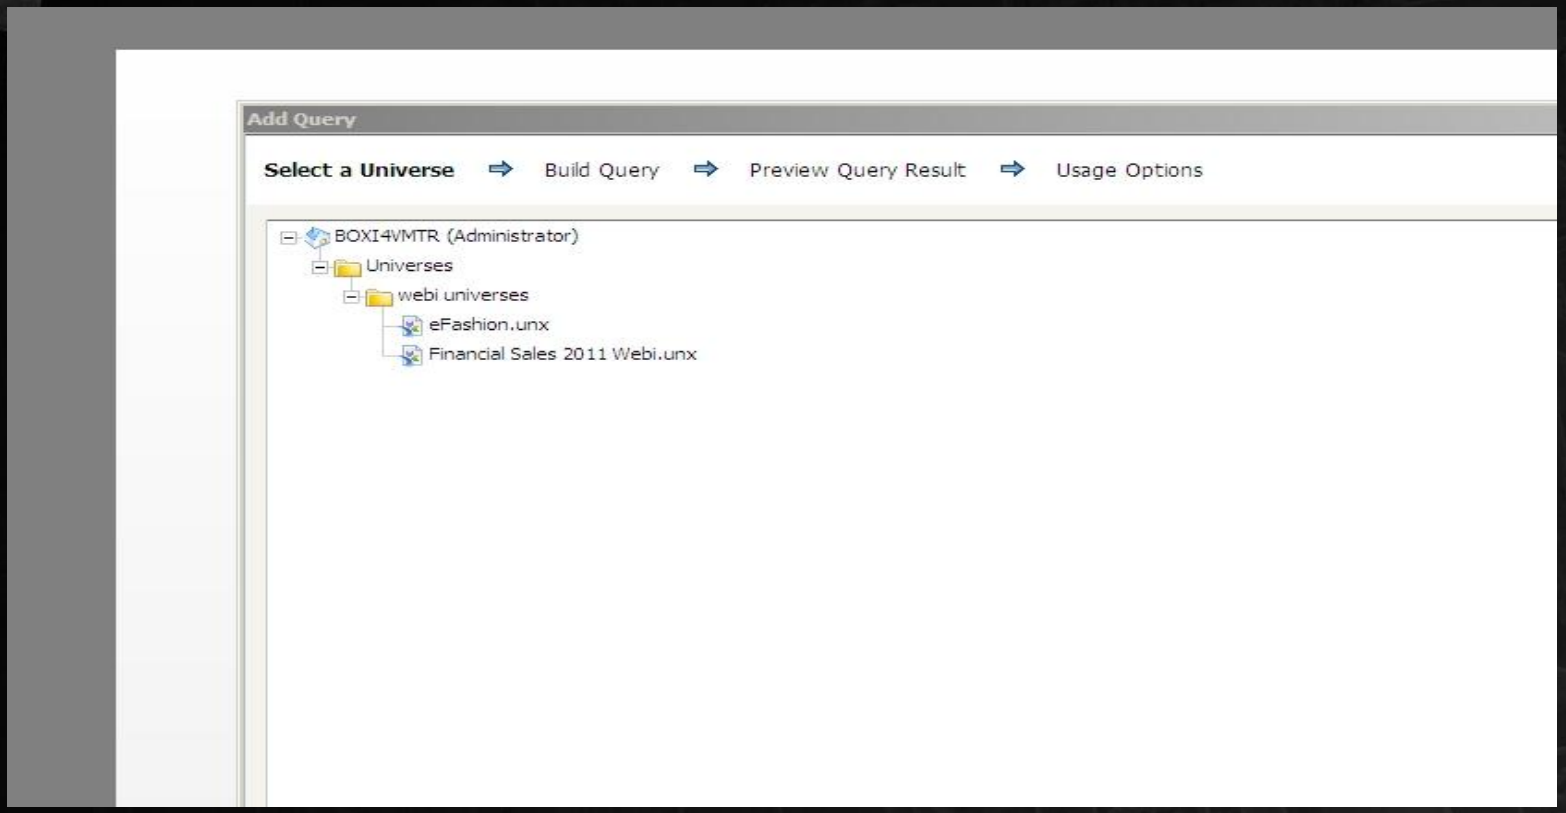
Query Builder

Log Into BO Universe



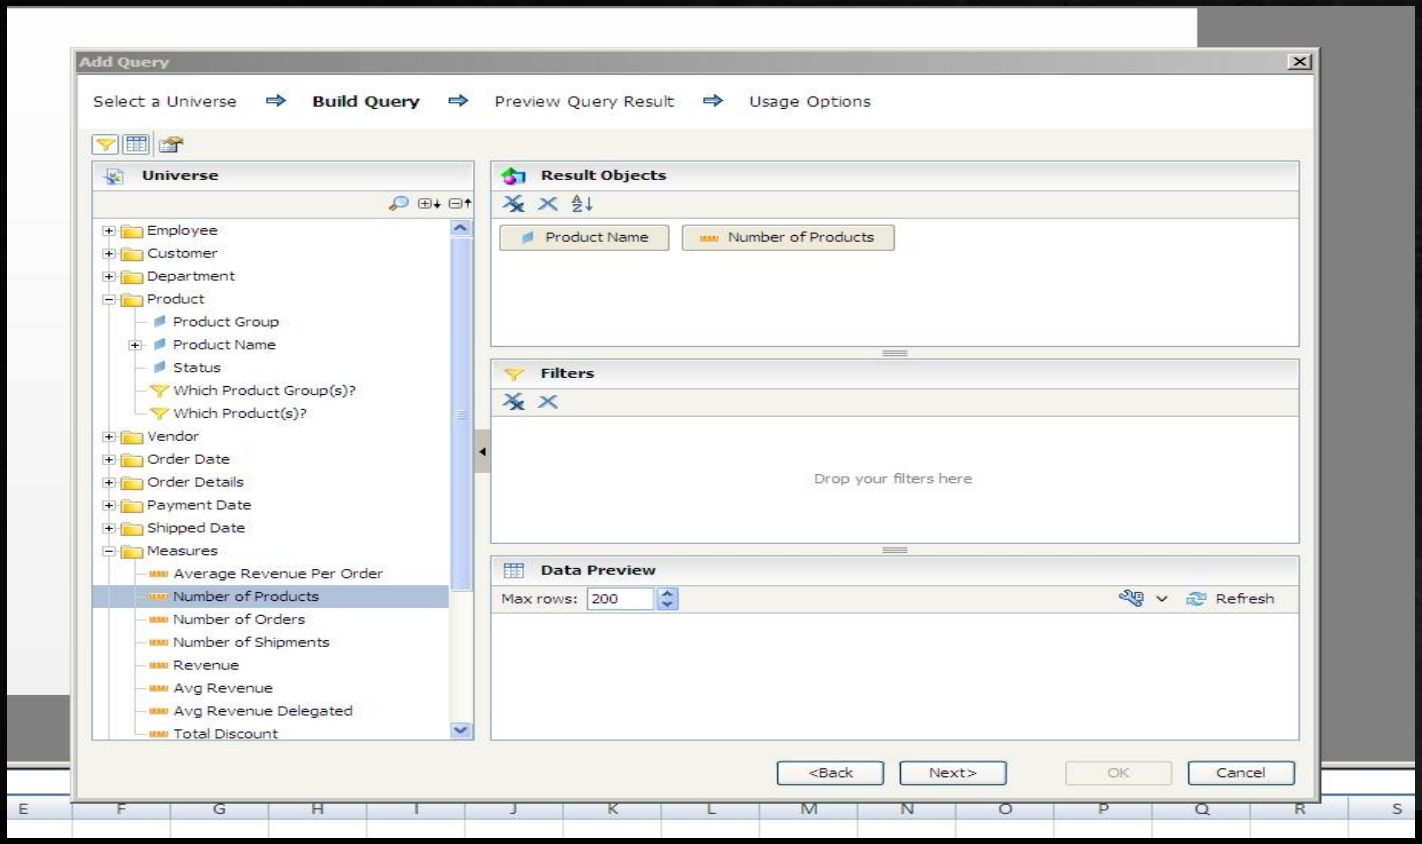
Query Window

- Universes must be .UNX



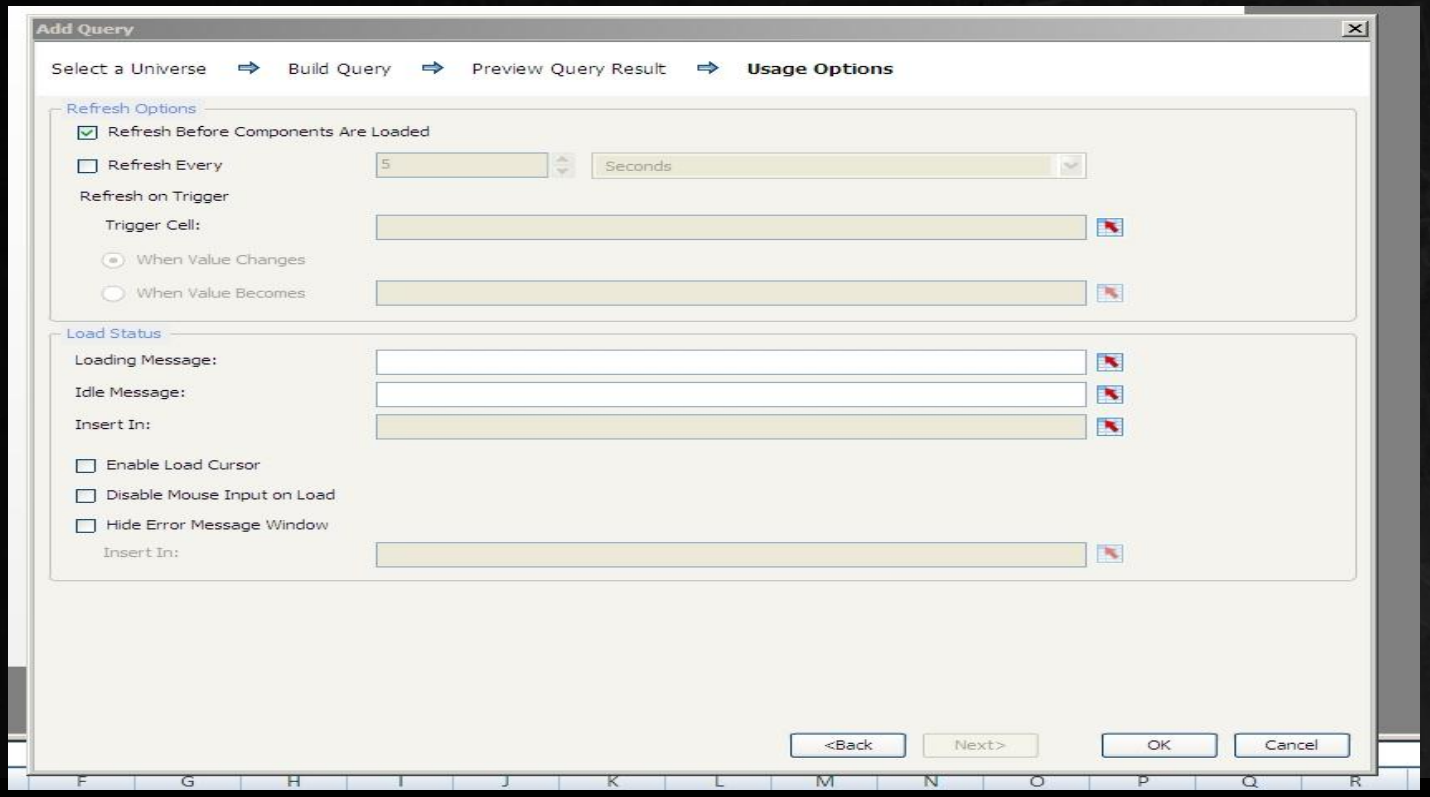
Build Query

- Similar to QAAWS



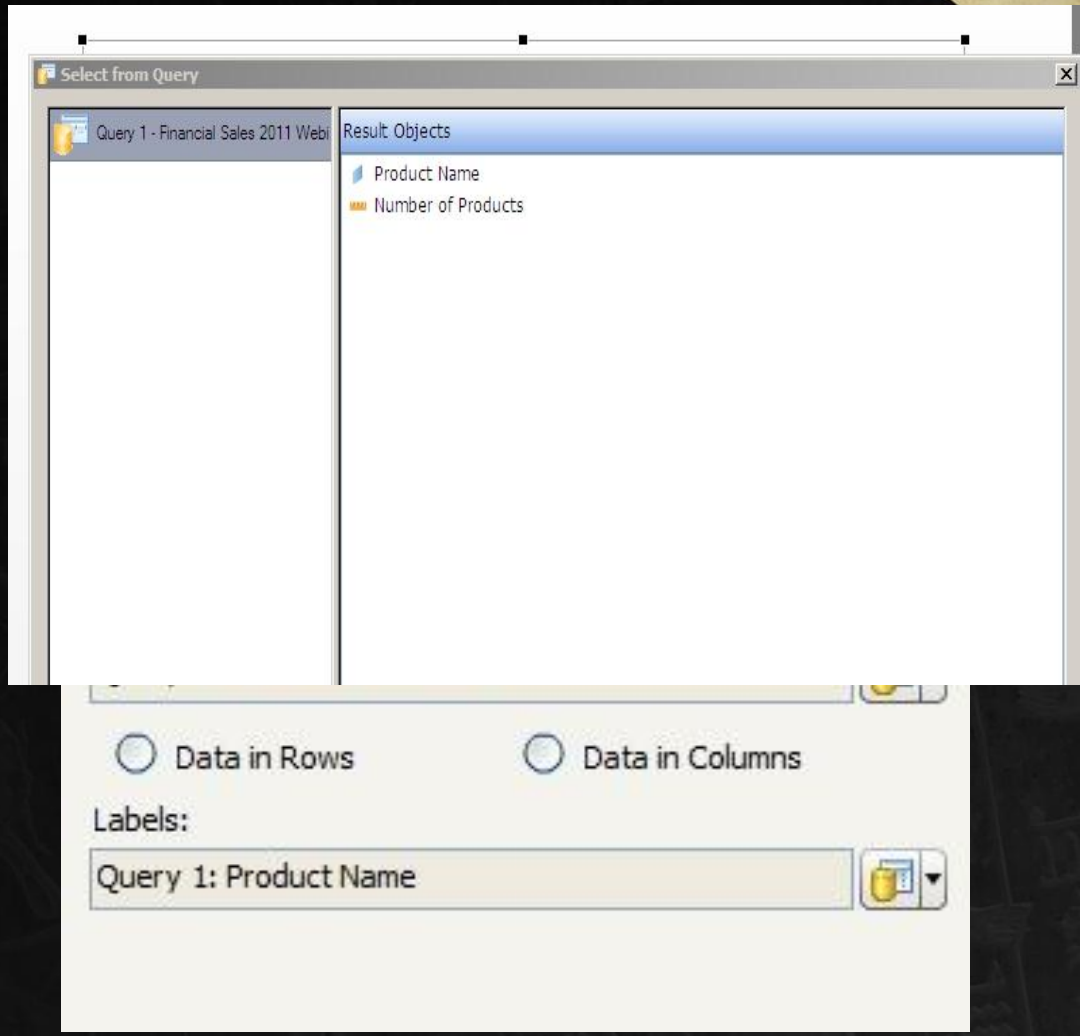
Usage Options

- Query Window, not in Connections!



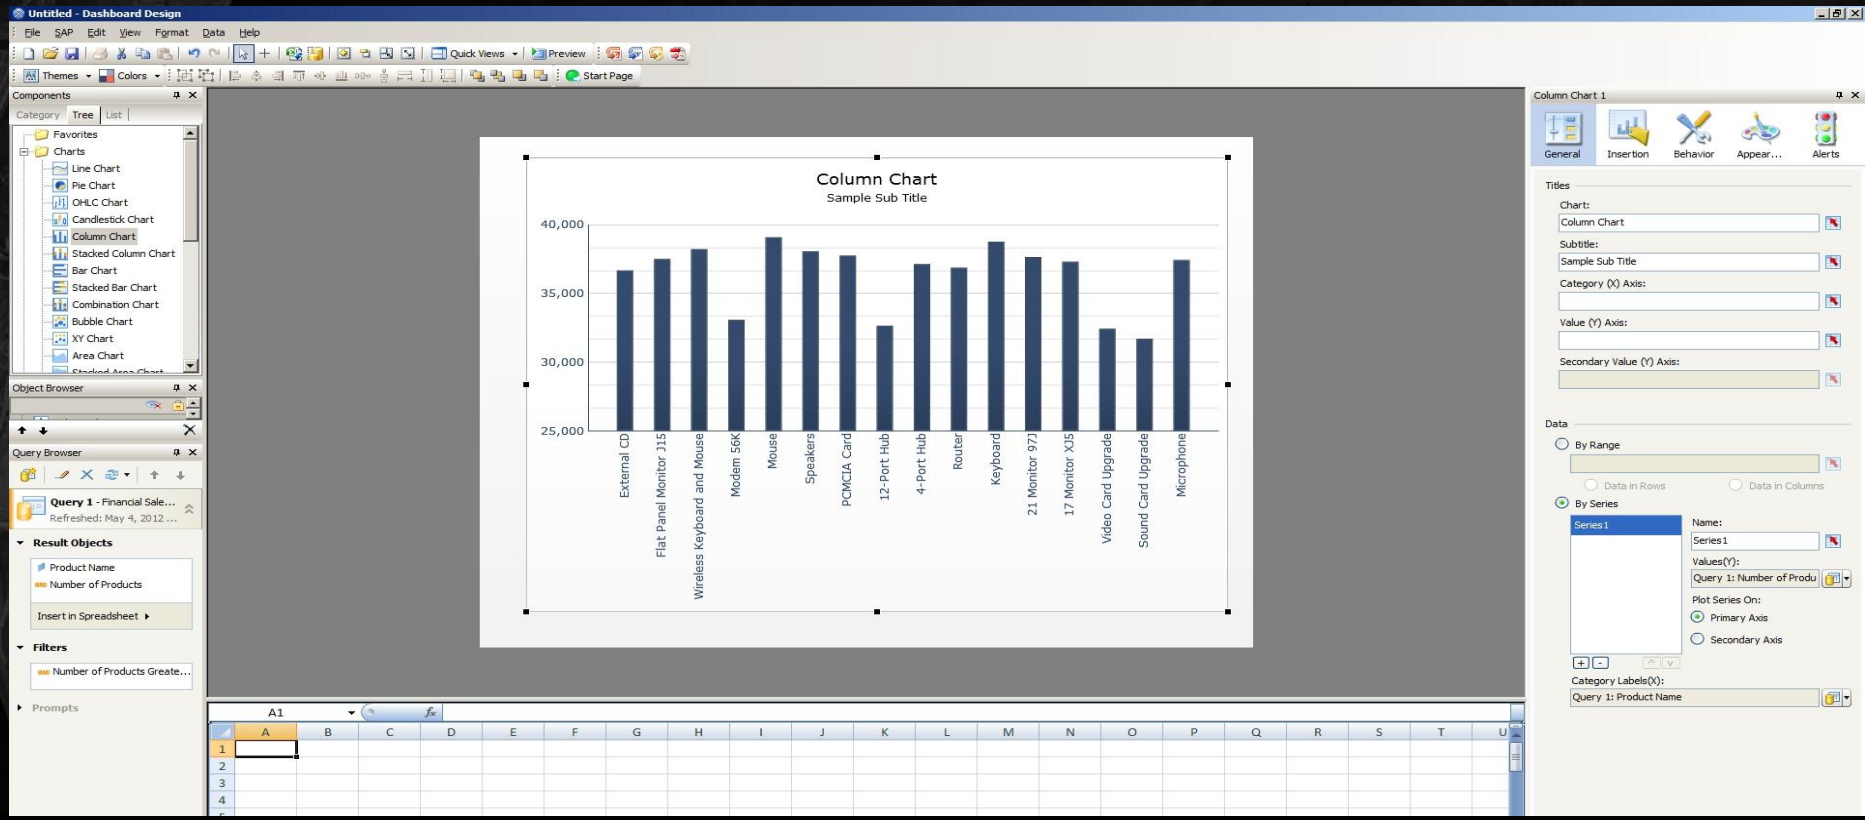
Populate Components

- Bind with arrows
- Select from Query Window



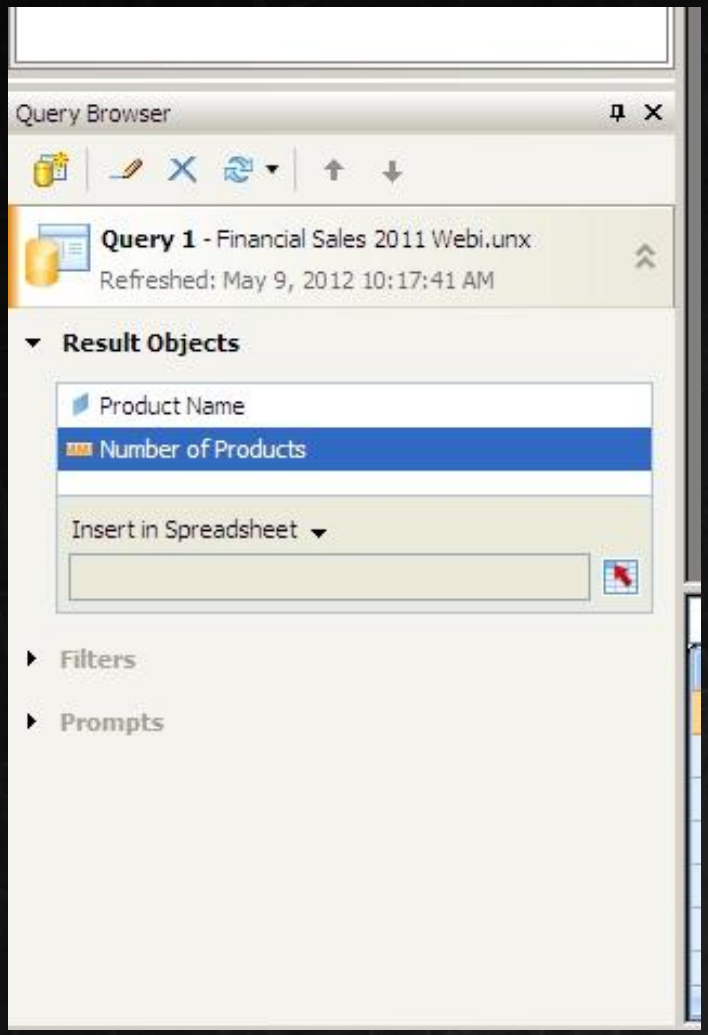
Populate Components

- No Excel necessary



Query Browser

- New Query
- Edit
- Delete
- Refresh
- Filters
- Prompt



Practical Demonstration
